Hospital Canselor Tuanku Muhriz Azman Hashim Laryngology Clinic

KUALA LUMPUR: Yayasan Azman Hashim donated medical equipment to the Laryngology Clinic in Hospital Canselor Tuanku Muhriz ("HCTM"). The equipment include a blue laser, 2 flexible scopes with channel, 2 flexible scopes, an acoustic analysis equipment and an endoscopy storage cabinet. The scopes enable speedy and accurate diagnosis and the blue laser, the first in Malaysia, enables patients to undergo surgery without general anesthesia, thereby reducing clinic turnaround time as well as patient recovery time.

Universiti Kebangsaan Malaysia ("UKM") named the clinic Ruang Rawatan Laringologi Azman Hashim (Azman Hashim Laryngology Treatment Room) in honour of the donor. The clinic was officiated on 13 August 2025. Present at the event was Tan Sri Azman Hashim himself, representing Yayasan Azman Hashim, and Prof. Emeritus Dato' Dr. Mohamad Abd Razak, Chairman of the Board of Directors of UKM, as well as the management delegates of both parties.

HCTM's expertise in cases involving laryngology is recognized globally, with specialists from countries such as Philippines, Arab-Saudi, Omar, Bahrain and UAE undergoing training with HCTM.

After the symbolic handover of keys to the laboratory by Tan Sri Azman Hashim to HCTM, guests were taken on a tour of the treatment room.
